INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., present to subscribers and the general public, this, the 1958 edition of the Glendale City Directory.

Confidence in the continued growth of Glendale's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Glendale to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Glendale Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE YELLOW PAGES constitute the first major department of the directory. This embraces a complete list of the names and addresses of the business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. Preceding this catalog, likewise grouped under appropriate headings, are the advertisements and business cards of firms and individuals desiring to present a more complete list of their products or services than is possible in the catalog itself. The Yellow Pages represent reference advertising at its best, and merit the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Glendale, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Glendale, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY, is the fourth major department, printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Glendale.

The Glendale Directory Library

Through the courtesy of the publishers of the Glendale City Directory, a Directory Library is maintained in the offices of the Glendale Chamber of Commerce, for free reference by the general public. This is one of more than 700 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

History and Development

In the year 1769, title to all land in California became vested in King Charles IV of Spain. Jose Maria Verdugo was a corporal in the Royal Spanish forces. He was, however, born in Loreto, Baja, California.

At San Gabriel Mission, in 1779, Verdugo married the daughter of Ygnacio Lopez, Maria de la Encarnacion.

On Oct. 20, 1784, Governor Fages granted the corporal permission to settle upon the site of Glendale, which covered 36,000 acres and was recorded as Rancho Rafael. On Dec. 7, 1797, Verdugo asked the Governor to retire him because of failing health, which was granted Jan. 12, 1798. In 1822, California became Mexican territory.

On Aug. 13, 1828, Jose Verdugo made a will with provisions for his four children. Catalina and Julio were favored ones. On April 12, 1831, Verdugo died and was buried in the San Gabriel Mission.

After the war with Mexico, California was ceded to the U. S. by the Treaty of Guadalupe Hidalgo. In 1855 the Board of Commissioners in Washington acknowledged the Verdugo family's title to the vast tract of land.

The Verdugos had financial difficulties, and on March 8, 1869, the property was sold at public auction, with 200 acres being quitclaimed back to Julio. The Rancho House on Dorothy Drive, Glendale, which today is municipally-owned, is a part of a 100-acre tract received in 1872 by Maria Sepulveda de Sanchez, a granddaughter of Julio Verdugo.

The name of Glendale was adopted at a school-house meeting in 1884. The townsite was laid out in 1886. In March, 1887, the survey was completed, and the Town of Glendale became a reality and was officially recorded. On Feb. 16, 1906, Glendale was incorporated, and by 1910 it had a population of 2,700.

In the years from 1916 to 1922, Glendale shared, with the rest of southern California, in the general rise in land values and increase of population. A wave of newcomers descended on Glendale in such force that its boast at that time of being "the fastest-growing city in America" really was justified. In 1950 the U. S. Census showed Glendale with a population of 95,702.

Sheltered on the north by the Verdugo Mountains, on the east by the San Rafael Hills, on the west by the Hollywood Hills, Glendale lies protected from the hot winds of the desert country and the chill breezes that come at times from the ocean. The temperature is mild and equable at all seasons of the year.

The great motivating power behind the growth of Glendale has been the home. Glendale is considered a city of homes--from the modest bungalow to the mansions of the foothill estates.

There are over 250 associations, lodges, clubs and organizations devoted to the commercial development, civic improvement and social, cultural and fraternal life of the community.

From kindergarten on up through college, the schools of Glendale offer the finest educational facilities available, with physical equipment ranking with the best in the country. Glendale being centrally located, such institutions of learning as the University of Southern California, the University of California at Los Angeles, Occidental College and Cal Tech are easily accessible with various types of transportation.

The spiritual life of Glendale is represented by churches of all denominations, many of which are among the most artistic and picturesque edifices of their class in southern California.

Glendale's musical organizations, dramatic and dance clubs, literary societies, and art association, offer an unlimited field in which to exercise one's talents in music, art, drama and the dance. The Glendale Symphony Orchestra, Glendale Art Association, and the Little Theatre of the Verdugos, are among the cultural organizations. History and art are depicted by the Casa Adobe de San Rafael; the noted churches, Little Church of the Flowers, Wee Kirk of the Heather, and Church of the Recessional; the famed stained-glass painting, "The Last Supper," by Leonardo da Vinci, and the world's largest religious painting (195 feet by 45 feet), "The Crucifixion," by Jan Styka. The magnificent entrance, wrought-iron gates, English architecture of the building, the Hall of the Crucifixion, the Memorial Court of Honor where famous Americans are entombed, the magnificent stained-glass windows--the finest collection of stained glass in the country--re-creations of all of Michelangelo's major works, and many other art treasures altogether make Forest Lawn Memorial Park an unforgettable memory.

Recreation and sports (both indoor and out) are provided with unlimited variety in Glendale. Here you will enjoy golf, tennis, hiking, horseback-riding, swimming, or most any other athletic activity. Bowling, ping-pong, badminton, lawn-bowling, roque, horseshoes and many other such games are offered, along with theatrical entertainment of many types. Beautiful parks, trails, mountains to climb, and woodlands in which to stroll, are found on the outskirts of the city.

One of the essentials of modern civilization is transportation. In Glendale the public is adequately, efficiently and economically served with well-paved, wide highways and boulevards, railroad facilities, and bus lines.

Southern California, with its year-around climate, is the garden spot of the country. It produces the table necessities and luxuries to satisfy every whim of the appetite. Fresh fruits, vegetables, meats and delicacies are offered at prices comparable to other cities of this size.

Economical and efficient management of city affairs is essential to the material welfare of a city. In this, Glendale stands in the forefront of California cities. Glendale is able to give and does give to its citizens unexcelled police and fire protection, ample provisions for health and sanitation, well-maintained streets, and excellent parks and recreational facilities, at low cost. Glendale stands today as one of the best financed cities of the Pacific Coast.

The public utilities of Glendale include municipally-owned water and electric plants. Glendale offers an abundant water supply at reasonable rates. Natural gas also is supplied at low rates.

Out of Sight!
Out of Mind!
Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

▼

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers —the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

Do your employers furnish you with the latest edition of the City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

SAVINGS AND LOAN ASSOCIATIONS

INSURED SAVINGS ACCOUNTS • HOME LOANS • ESCROW SERVICE

If you plan to buy or build a home, you will want the advantages of a Fidelity Federal

"WORRY-FREE" LOAN

Generally, for most families, no other single outlay involves so large a sum of money as home ownership. For this reason a mortgage is almost invariably assumed. If a complete sense of security in home ownership is to exist, a well-planned method for financing should be arranged from the start. Because we are a specialized home financing institution with years of experience in money management, every loan is measured to the home owners' income and fitted to his needs, assuring financial comfort now—later on, too. "Worry-free" ownership is achieved through rent like monthly payments.

There are no lump sum payments to make at any time and you need only modest savings to start. Our Loan Officers will be glad to show you how home financing, the Fidelity Federal "worry-free" way, can be pleasant, satisfying and economical. They will be happy, too, to answer any questions you might have.

WE HAVE A SPECIAL PLAN—for builders through which sub-contractors and suppliers, like the plumber and the electrician, come to us directly for payment of their work. If you are a builder, a contractor, or if you plan to build, we invite you to talk our plan over with Spencer Scott, Assistant Vice-president.

A SMOOTH TRIP THROUGH ESCROW—our escrow department is one of the largest in the area and is headed by Mrs. Marcella B. Smith. The escrow department has the highly important job of investigating the title to property which you may be buying or selling, to make sure there are no hidden—perhaps forgotten—claims against it. "Going through escrow" is one of the most important things in any real estate transaction.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *ALPHABETICAL* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 *A HOUSEHOLDERS' DIRECTORY* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *CLASSIFIED BUSINESS DIRECTORY* listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"YELLOW SECTION"*, where the advertiser may explain in greater detail the services or products he has to offer.

5 A *STATISTICAL and HISTORICAL STORY* of your city: plus miscellaneous other information.

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

☆

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Out of Sight — Out of Mind —Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind —Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind —Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.
The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight — Out of Mind — Out of Business
The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised
The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight

Insist on Being Well Represented in Its Pages

Out of Sight — Out of Mind — Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised

The City Directory is the natural medium for keeping a business or product name in the spotlight
